

ACCELERATE YOUR AWS MAP FROM ASSESS TO MOBILIZE

A structured, two-week MAP Assess that turns readiness into funded execution, faster and with clarity.

HOW WE HAVE ACCELERATED THE ASSESS PHASE

Commit's MAP Assess is designed to rapidly evaluate your organization's readiness for the AWS Migration and Modernization Program (AWS MAP) and swiftly propel you into the Mobilization phase. Our streamlined process delivers actionable insights within two weeks, enabling you to make informed decisions and accelerate your cloud transformation.

TIMELINES AND OUTPUTS

Week 1: Foundation and Alignment

- **Kick-off Meeting:** Joint discussion with the customer and AWS to define project scope and objectives.
- **Infrastructure Assessment:** Rapid evaluation of key infrastructure components and dependencies.
- **Initial TCO Analysis:** Preliminary cost comparison to identify potential savings.

Week 2: Data Refinement and Mobilization

- **Data Collection:** Gathering detailed information for a comprehensive assessment.
- **Analysis & Outcomes:** Cloud migration options, and cost analysis.
- **Mobilization Package:** Preparing and submitting required documentation to initiate the AWS MAP.

Deliverables

- **Architecture and Migration Design:** Developing a high-level migration blueprint.
- **TCO Refinement:** Creating a detailed cost model for accurate ROI analysis.
- **Project Timeline:** Defining key milestones and deliverables for AWS MAP.

**Experts,
for a Reason**

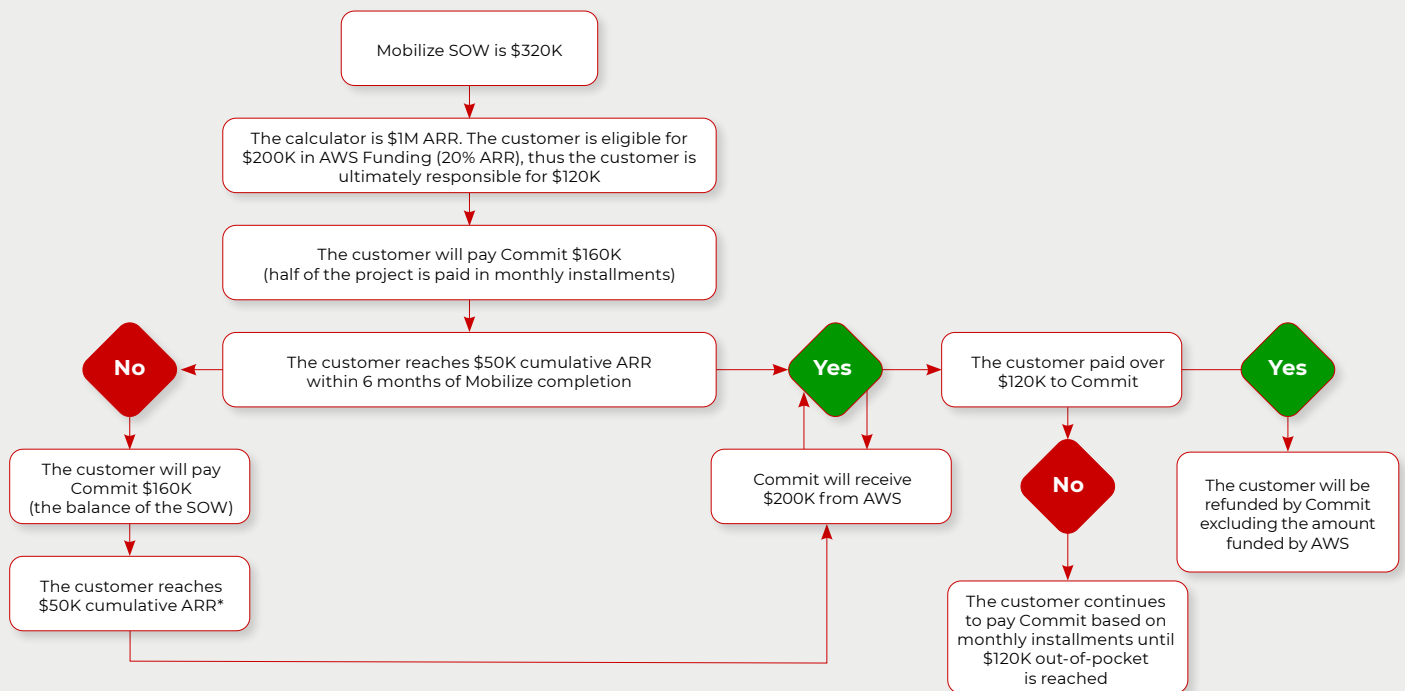

- AI Services Competency
- SaaS Services Competency
- Data & Analytics Services Competency

- Small and Medium Business Services Competency
- Migration and Modernization Services Competency

MOVE TO MOBILIZE

Commit's unique approach leverages MAP funding while remaining customer-obsessed (for SOWs below \$400K):

- The customer pays 50% of the project cost as part of milestone deliveries during the Mobilize phase.
- The customer has 6 months post-Mobilize project completion to reach \$50K cumulative ARR.
- If \$50K cumulative ARR isn't met within 6 months, the customer will be responsible for the balance of the SOW.
- If and when \$50K cumulative ARR is met, Commit will ensure that the customer receives all eligible AWS funding once AWS approves the milestone completion.

* Assuming AWS is still willing to fund the \$200K
